Antwoordnummer 21
2509 VB Den Haag

Additional information

- You can only transfer NN funds which are held on an account with a Dutch financial institution. And which are available at FitVermogen.nl.
- Between Dutch financial institutions only entire participations of investment funds can be transferred.
- During the transfer it is not possible to sell your funds.
- The length of the entire transfer process is not exactly known upfront as we are also dependent on the transferring party. On average it takes about ten working days.

If your old financial institution charges you transfer costs, we would like to compensate you. For all details please see our website at the section Questions / Transfer service.
